SUMMARY

Software Engineer experienced in building scalable and responsive applications using React.js, Laravel, and Flutter. Skilled in designing efficient solutions, maintaining high-quality code, and collaborating in Agile development environments. Passionate about building user-focused applications and continuously improving technical expertise.

WORK EXPERIENCE

- Digital Marketing and Web Operations Assistant** **May 2026 - Present**
H&H Medical Supply – Whittier, California
 - Maintained and updated company CRM systems and websites to ensure optimal performance and usability.
 - Developed and customized CRM systems and websites based on business requirements.
 - Provided technical support by troubleshooting hardware, software, and system-related issues.
- Software Engineer Intern** **Feb 2026 - April 2026**
FullSuite – Baguio City, Philippines
 - Engineered core system modules using React.js, Tailwind CSS, and TypeScript, ensuring responsive front-end performance.
 - Collaborated in an Agile/Scrum environment by participating in daily stand-ups, sprint planning, and delivering tasks within deadlines.
 - Conducted unit and integration testing to ensure system functionality, reliability, and overall software quality.

EDUCATION

- Bachelor of Science in Information Technology,** **July 2026 (Expected)**
Major in Web and Mobile Technologies
Pangasinan State University - Urdaneta City Campus
 - Certifications:** Test of Practical Competency in ICT (TOPCIT) Level 3
 - Relevant Coursework:** Full-stack Development, Mobile Framework Implementation, UI/UX Design, Cybersecurity, Networking

PROJECTS

- SL Coaching Module**
 - Developed a centralized coaching module using React.js, TypeScript, Tailwind CSS, and MySQL to streamline employee performance tracking and feedback workflows.
- LegallyAI (Capstone Project)**
 - Led the development of a cross-platform AI legal assistant integrating OCR technology to simplify complex legal documents and improve accessibility.
 - Presented the research project at the International Interdisciplinary Research Conference 2026.
- TasteWise**
 - Built a Flutter-based mobile application integrating the OpenWeather and Spoonacular APIs to provide personalized recipe recommendations based on weather and location data.

SKILLS

- Languages:** JavaScript, TypeScript, Python, Java, C++, PHP, SQL, HTML/CSS, Dart.
- Frameworks/Libraries:** React.js, Laravel, Flutter, Flask, ASP.Net, Tailwind CSS.
- Tools & Backend:** Git/GitHub, MySQL, Firebase, MongoDB, REST APIs, Docker.
- Design:** UI/UX Design, Wireframing.
